

MACK GRANITE - CMM EXTENDED ENGINE COVERAGE.

EXTENDED ENGINE COVERAGE

Extended Engine Coverage is available in addition to the Mack Standard / Driveline warranty to 13Lt engine applicable to applications up to 90 tonne and can be purchased up to 6 months from date of delivery.

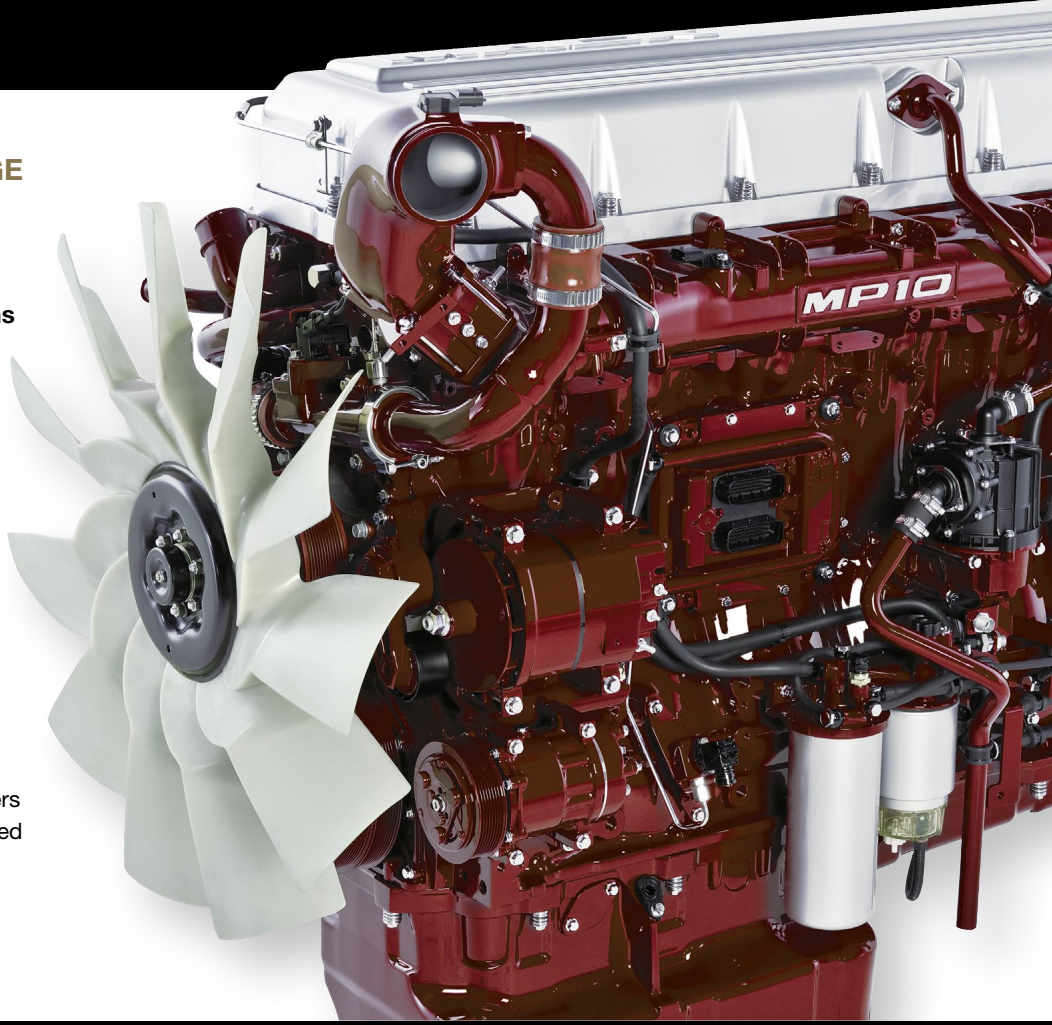

REPAIR AND REPLACE

Under Extended Engine Coverage, all failed engine parts will be repaired or replaced, except for normal wear & tear and maintenance items.

TOWING

If the truck breaks down due to engine failure, and cannot be repaired on-site, reasonable costs to tow your vehicle (trailers not included) to the nearest Mack authorised workshop will be covered.

Towing is to be arranged by an authorised Dealer.

COVERAGE PERIOD

The Extended Engine Coverage period is applied on a 'whichever occurs first' basis:

- 5 years; or
- 1,000,000 kilometres; or
- 12,500 engine operating hours; or
- 800,000 litres of fuel burn

WARRANTY TRANSFER

If the truck is sold into the same application or segment category, the balance of the warranty can be transferred at no cost. If sold into a different application or segment category, some or all of the warranty may no longer be valid.

Please contact your nearest local Dealer.

APPLICATIONS OVER 90T GCM

For vehicle applications over 90 tonne please contact your Dealer for warranty options.

MACK GRANITE - CMM EXTENDED ENGINE COVERAGE.

IF THE TRUCK BREAKS DOWN

If the truck breaks down due to engine failure, the following isn't covered:

- Downtime
- Vehicle hire
- Freight damage
- Any other commercial costs

EXCLUDED ITEMS

The Mack Extended Engine Warranty does not cover the following items:

- Normal wear and tear, abuse, neglect or accidental damage
- Exhaust after treatment components
- Oil consumption
- Items not directly connected with the failure
- Repairs undertaken by unauthorised repairers
- Belts, fan, fan hub and fan clutch, hoses and clamps and external wiring harnesses
- Adjustments to valves, injectors and fuel pump, tightening of hoses, pipes bolts
- Starter motor and alternator

SCHEDULED MAINTENANCE

The vehicle must be maintained as outlined in the Mack Optimised Service Plan (MOSP) for the Extended Engine Coverage to remain valid.

Mack Trucks Extended Engine Coverage cannot support claims for any components that are either neglected or not maintained as outlined in the Mack Optimised Service Plan (MOSP).

Recommended Mid-Life Replacement

The recommended Mid-Life Replacement is in addition to the maintenance described in your Mack Optimised Service Plan (MOSP).

Important

The recommended mid-life maintenance is to be carried out at an authorised Mack workshop. If a preventative replacement component is not replaced and the component later fails, the claim for that component and *any consequential damage* cannot be supported.

The intervals below are to be used as a guide only, and may vary based on operation / application. Please refer to the vehicle MOSP for further details.

Please refer to the Mack Truck Warranty Booklet for further coverage clarification and information.

MID-LIFE MAINTENANCE / SERVICE

WHEN:

2.5 years / 500,000kms / 6,250hrs / 400,000L
whichever occurs first
