

MACK®

Mack Uptime in Real Time

Count on Mack to deliver uptime, all the time.

When you run with Mack, it's always uptime. Mack connects your trucks to the information and support your business needs. Using predictive analytics and connective and driver assist technologies, Uptime Solutions provide data, insight and action to help you perform at your best. So you're ready to roll, every time.

Mack Uptime Solutions:

Mack's combination of connected vehicle telematics and fleet management services is dedicated to keeping you on task and on time. And when something does happen to your truck, Mack's large dealer network offers trained technicians, more accurate diagnostics and improved communication that gets you back on the road quicker than ever before. No matter where the job takes you, you can trust Mack's unmatched Uptime Solutions to get you there.

Macktrucks.com.au/mack-connect/

Mack Uptime Solutions.

You don't put limits on your business. We don't put limits on your service. Anywhere you work in Australia you're covered by the Mack Uptime Promise. With expert technicians and the largest service network in Australia, we have the resources to do the job and the know how to do it right.

For more information contact your local Mack dealer for a detailed description of the terms and conditions for Mack's Uptime Promise and Mack Ultra Service agreements.

Connected Driving

The trucking business can be demanding on our trucks and our drivers. Protect your fleet with our most advanced safety system, providing driver-assist technologies to give you peace of mind.

Information and Entertainment

Bluetooth, satellite radio, Apple CarPlay and Android Auto integration and more to make life on the road as enjoyable as possible.

Bendix® Wingman Fusion™

Driver assist and safety technology combining radar, camera and brakes from the leader in collision mitigation.

Collision Avoidance

Automatically alerts the driver and, if needed, applies the foundation brakes to mitigate or prevent a potential collision with a forward moving vehicle or stationary object.

Roll Stability

The Bendix® ESP® full-stability system helps drivers mitigate rollovers and loss-of-control in situations on wet and dry roadways through advanced sensors and throttle and braking interventions.

We're on call to keep you on the road

Mack Action Service is a breakdown coordination service that links you to our entire dealer network, to get you moving again in the shortest possible time.

We've got you covered

As an addition to our Ultra service agreement, the Mack Uptime Promise means if you have a breakdown, with one call to Mack we'll be on the job so you can get back to doing yours.

Connected Business

To succeed in the modern trucking industry you need to run a modern trucking company. Drive profitability and gain insights at every turn with Mack's fleet management systems.

Mack Connect®

Advanced fleet management system that monitors driver and truck performance with real-time analysis and top-line reporting to help you improve business operations.

Mack Fuel Solutions

The coaching, advice and technology to cut your fuel costs.

Fuel Tax Credits

Helping you get the most out of your Fuel Tax Credit claim, this monthly report saves you time, reduces errors and ensures you always claim your full entitlement and have evidence to substantiate the claim.

Connected Support

Your trucks are only profitable when they're on the road and on the job. Maximise your uptime with intelligent maintenance systems and time-saving repair processes. Using predictive analytics, Mack Connect turns data produced by the truck, the driver and the service process into insights and actions that help you perform at your best.

Preventive Maintenance

Keep your trucks in top shape with a Mack Optimised Service Plan that creates a tailored service schedule that matches the usage and kilometres of your vehicle, so we can repair or replace components before it impacts your business.

Added reliability

For premium performance, reliability and full warranty protection, nothing comes close to Mack Genuine Parts quality.

The ultimate connection between man and machine

Our Driver Development courses are designed for different applications, we deliver industry-leading instruction that helps drivers learn techniques to optimise fuel efficiency and reduce running costs.
